WHOLESALE PRODUCTS AVAILABLE

- **Giclée** - Limited Edition archival grade giclee prints on canvas are available either stretched and secured over wooden bars with gallery wrapped sides, or as a rolled canvas for custom framing.
- **Aluminum** - Limited Edition aluminum prints are printed using the highest quality inks, transferred into luminescent aluminum sheets and finished with a special protective coating. The printing process uses a unique imaging technology which results in a clear, high-definition image with unsurpassed resolution. All aluminum prints arrive professionally float mounted and ready to hang on your favorite wall.
- **Panoramics** - Photographs that can be printed on either gallery wrapped canvas or float mounted aluminum prints, but with the added dramatic flare of panoramic proportions. Both horizontal and vertical orientated images are available.
- **Aluminum Diptychs, Triptychs, & 4-Panel Prints** - Zak Noyle's dramatic surf photography is split into contemporary display panels on limited edition Aluminum sheets. These multi-panel prints are made with the same special printing process as our other aluminum pieces, but split into diptych panels (2), triptych panels (3), or Quad Panels (4) and are float mounted for unique displaying.
- **Paper** - Zak Noyle Photographs are offered as Matted Prints on Paper, where the paper prints are mounted in a hand signed white mat; and are offered in two paper types:
 - **CHROME PAPER** - Metallic photo paper w/ high gloss finish; a favorite paper type for professional photographers.
 - **BAMBOO PAPER** - World's first fine art inkjet paper made with real bamboo fibers, and features a matte finish. Bamboo is a beautiful eco-friendly alternative.
